

Welcome **HAERE MAI**

**TO A STUNNING LAND & A GLOBAL
LEADER IN SUSTAINABILITY**

WHY IS IT IMPORTANT?

- SMALL, OPEN TRADING NATION THAT RELIES ON SELLING TO THE WORLD
- OUR STRENGTH IS OUR UNIQUE NATURAL ENVIRONMENT AND OUR PEOPLE
- WE THEREFORE NEED TO LOOK AFTER OUR PLACE IN THE WORLD
..... FOR TODAY AND TOMORROW
- INCREASINGLY SUSTAINABILITY IS BECOMING MORE IMPORTANT FOR OUR CUSTOMERS

SUSTAINABLE TOURISM

- AS A SECTOR WE SHOULD ASPIRE TO BECOMING NET POSITIVE
.....SOCIAL, ENVIRONMENTAL, ECONOMIC AND CULTURAL
- SECTOR IS WELL PLACED AND ALREADY ADVANCING
- IT HAS TO BE A JOURNEY, NOT ONE GIANT LEAP
- WE NEED TO REMAIN IN THE BLACK (NOT THE RED) AND BE COMPETITIVE

Key Achievements

Electric Vehicles

Our commercial vehicle fleet is 100% electric and we are transitioning our utility vehicles

Autonomous Shuttle

We're trialling New Zealand's first 100% electric autonomous shuttle

Zilch EV Fleet

We support making electric vehicles available to our community

Zero Emissions Flight

In 2020 we installed New Zealand's first dedicated electric plane charger

Ground Power Units

Our new electric GPUs save hundreds of kilograms of carbon emissions every day

Emissions Reduction

In 2020 we became the first airport in the world to reach Airport Carbon Accreditation Level 4, the highest level achievable

Kōwhai Park

We're building a renewable energy park to support the nationwide transition to zero emissions energy

Future Aviation

We've reduced our Scope 1 emissions by 85% since 2015 and we're preparing our airport to support future zero emissions aviation

Artesian Heating System

We use pure aquifer water to help heat and cool our terminal (and return it to the aquifer unharmed!)

Water Meter

We measure how much water's being used in the terminal in real time

Biodiversity

We're home to a unique dryland habitat, which we plan to regenerate

Avanex Grass

We were the first airport in the world to develop a natural grass that discourages birds

Landfill Remediation

We've remediated former landfill sites into commercial property

Noise Monitoring

We measure, manage and report our noise performance

Circular Waste Journey

We're partnering to minimise waste and find circular solutions for our waste streams

SUSTAINABILITY HIGHLIGHTS

9,147.7 TCO2E
REMOVED
SINCE 2015 BASELINE

94% DROP IN
SCOPE 1 EMISSIONS
SINCE 2015 BASELINE

100% ELECTRIC COMMERCIAL
VEHICLE FLEET

15 HECTARES CONTAMINATED
LAND REMEDIATED
